

Define Drawing

The McLean County Arts Center presents the group exhibition *Define Drawing* from June 21 through August 17, 2013. A free and public Opening Reception will take place on Friday, June 21 from 5pm to 7pm.

Drawing has exploded in the last century to include experimental materials and techniques as well as celebrate the skilled traditional methods. *Define Drawing* is a group exhibition highlighting the infinite ways to interpret drawing as an action and as an artwork. Ninety-nine local and MCAC affiliated artists responded to the invitation to each share one artwork that demonstrates how the artist draws. Open to any media and subject matter, the exhibition includes gestural graphite sketches, realist renderings in ink, 3d cardboard models, decorated functional ceramics, digital collages, and much more.

Exhibiting Artists

Jeanine Abels
Sheila Asbell Allen
